Location:	Birmingham
Year:	1999
Total Value:	£0.6m
Services Value:	£0.2m
Duties:	Design of Mechanical and Electrical Services Installation

### Design Team:

Project Manager:	Donaldsons
Architect:	Donaldsons
Main Contractor:	Greswolde Construction
Electrical Contractor:	RSC Engineering
Mechanical Contractor:	RSC Engineering

### Description of Project:

The college were struggling for space for arts and crafts curriculum.

A traditional steel frame building in the middle of the college was under utilised and ideal for the redevelopment using the natural daylight of the north light glazing; for the fashion and fabric courses.

As part of the development a new college entrance was created allowing increased staff, client and visitors control.
